

ASSOCIATION OF POLISH ENGINEERS IN GREAT BRITAIN

STOWARZYSZENIE TECHNIKÓW POLSKICH W WIELKIEJ BRYTANII

Kandydatury na nowych członków zarządu STP

SEBASTIAN CZAJKA

Biografia

Project Director with a demonstrated history of working in the real estate industry in London. Founder of Vision Success. Skilled in project management in various disciplines such as planning, programming, Health & Safety and quality management. He graduated with a Master of Science in Engineering from the Gdansk University of Technology. Completed an Executive MBA at Henley Business School and is a Chartered Member of the Chartered Institute of Building. Skilled in personal development and works as a Coach and Mentor for a Senior Management Team. Experienced in building high-performance teams and developing high-quality projects.

Interest and motivation

I plan to use my knowledge and experience (project management) to help the organisation attract new members by creating and running a few new activities (projects).

Perhaps to help the organisation restructure itself to become more modern and friendly to the outside world and be more recognisable.

I would like to review the strategy with the team and make a plan of action to implement it.

ELWIRA KAMINSKA

Biografia

I graduated from Wrocław University of Environmental and Life Science with the degree of MEng in Food Biotechnology. I then moved to the UK to continue my education at Kingston University and St. George's University of London to complete my MSc in Biotechnology and PhD in Cancer Immunology, respectively. I have then joined STEMCELL Technology, a biotechnology company as a Scientific Sales Representative working with academics, industry and diagnostic labs with the focus on immunology. Recently I joined a precision medicine company, Sengenics, as a Sales Director for Northern Europe.

Interest and motivation

I am excited about the possibility to expand the advertisement of the STP and its activities across the Life Science sector in the UK. With my expanding network of scientists in this area, I would aim to share the benefits of STP membership with fellow Polish scientists in the UK. I would also encourage them to participate in activities organised by the STP, such as Czwartek4You talks, help with promotion of those events and find ways to exchange ideas and expertise with others.

Networking and meeting new people are part of my day-to-day activities, which I enjoy a lot. I hope this will help me with reaching out to relevant people. I am hoping to learn more about the functioning of the STP and help with its progress and representation.

TOMASZ KOPERNIAK

Biografia

Born in Krynica-Zdrój on April 14, 1981, where I spent my childhood. Graduate:

- Technical Secondary College of Construction, Nowy Sącz, Poland - profession: CIVIL ENGINEERING TECHNICIAN,
- Post-Secondary Vocational College of Architecture Nowy Sącz, Poland - profession: Architect Technician,
- University of West London, School of Computing and Engineering - profession: ARCHITECTURAL DESIGN TECHNOLOGIST, BSc Hons 1st Class, ACIAT

Over 15 years of experience in the Construction Industry as a physical worker, architect's assistant in an international environment in Poland, Ireland, Belgium and the UK - where I spend the last 10 years working on medium and large projects. Currently, for half a year I have been a Project Designer at EURBAN - Specialist in CLT Construction

Interest and motivation

Help in improving the number of members by supporting the organization of open events, workshops, training. Currently, the main carrier of information is interactive media, and through them social media, which relatively increase institutional visibility by attracting new members and giving them the opportunity to meet and get to know each other for the first time, as well as participate in everyday life, thus creating a community and promoting values for the sake of common roots and a common homeland - Polish.

WOJCIECH LISOWSKI

Biografia

Graduate of Silesian University of Technology in Gliwice. Actively involved member of the SUT Student Union and the Erasmus SUT Gliwice as the marketing and promotion manager, collaborating with businesses by creating and coordinating a discount card for students. Experienced in logistics from working at Decathlon and Lear Corporation. In 2012, worked as an IT and graphic program instructor, as well as a warehouse management instructor at the Zakładzie Doskonalenia Zawodowego in Przemyśl. Has been residing in the United Kingdom for the past 10 years, working in logistics, IT, consulting, and international trade. Leads the International Trading Group, which focuses on consulting and international trade. Supports volunteer activities of the Polish community in England and around the world. Member of the STP from 2021.

Interest and motivation

Since I was young, my interests have always been in computer science and trade. I completed my collage in Przemyśl, specializing in Computer Systems and Networks. While studying computer science, I completed several courses in marketing, intellectual property, and entrepreneurship at the Technology Park. During this time, I also ran a clothing business and raised my son, who is now 14 years old. I trained in martial arts for over 16 years and rock climbing. After arriving in England in 2012, I worked in logistics and learned English. After a few years, I took a job at a Polish trading and manufacturing company as a new business developer. I joined the IOE&IT in 2016 and started my own company, International Trading Group. Today, I run an international trading company in the industry of commodities, real estate, art, IT, FMCG, event organization, and consulting. Our clients include NHS, Polpharma and Fabryka Wagonów Gniewczyna Sp. z o.o. while our partners include royal families, law firms, architectural firms, IT companies. I continue to educate myself in trading at the IOE&IT. I spend part of my time and money supporting volunteer initiatives. I have volunteered at SUT Student Union Gliwice, ESN SUT Gliwice, Afro Slot Art Festival in Gliwice, Habitat for Humanity Gliwice, The Portrait Foundation in London, and have been active in STP in the UK since 2021.

TOMASZ ROSIŃSKI

Biografia

Graduated in 2004 AGH Kraków – Master of Science in Engineering – Mechanical Engineering and Machine Design. From 2007 in UK. Started in building services in 2008 as CAD Technician, from 2012 I am working in Hoare Lea from CAD/BIM Technician, from 2014 moved carrier into Public Health Engineering, currently I am Principal PH Engineer in Hoare Lea, in 2022 I've become Chartered Engineer within CIBSE.

Interest and motivation

I am interested in promoting carrier as an international engineer within future engineers. As I am based in the South West I would like to promote STP alongside polish engineers working in this part of UK..
